

**DUCATI MULTISTRADA 2010+
SARGENT REAR CARGO CARRIER
INSTALLATION GUIDE**

Installation

Thank you for purchasing a Sargent Rear Cargo Carrier for your Multistrada. This product is manufactured to provide years of trouble free service with little to no maintenance. Please take a few minutes to review the information below.

Remove the stock rear seat per the OEM instructions.

If using the Cargo Carrier with the Sargent World Sport Front Seat, start by first checking to be sure that the front seat locking flange and locking hole are aligned. (see FIG 1) Slide the Cargo Carrier aluminum rear tab under the receiver first, then engage the lock pin (just as you would install the stock seat). With firm downward pressure, snap it in place to lock it.

Note

If using the Cargo Carrier with the Stock seat, this step is not necessary. Simply be sure the rear aluminum tab on the Cargo Carrier is engaged and with firm downward pressure, snap it in place to lock it, just as you would the stock seat.

CARE INSTRUCTIONS

Your World Sport Performance seat is made with high quality, UV-stable, mildew-resistant, outdoor-grade materials. These materials offer many years of superb performance with little to no special maintenance. Simply wash the seat with a mild detergent when you wash the bike. For other special upholstery options, such as leather, contact customer service or visit our website for details.

CAUTION

Certain materials such as CarbonFX are subject to permanent shoe/boot scuffing. Appropriate care should be taken, especially during product trial period.

Finished installations shown above. Enjoy!
